DESIGNING FOR OSOW...

OUTREACH

- Within your agency
- With your partner agencies
- With neighboring states
 - Port of entry
 - Regulations
- With OSOW INDUSTRY!
 - OSOW Subcommittee

OPERATIONS

- Champion in Design and Operations within DOT
 - Infrastructure not just Roundabouts!
 - Structures (DDI, SPUI, Echelon)
 - Work Zone Coordination
 - Last Mile

DATA

- **Cannot make realistic decisions without it!**
- Cannot just pick routes
- Need to know what is moving where
- Cannot design for everything
- Focus on transactional and routine loads
- Network should be ideal and not what you can do today
